THE NEW CANADIAN MAGAZINE.

Canadian Literary Monthlies have been short-lived; but Canada, the new one dollar magazine, has evidently come to stay. Since it was started in January, it has been enlarged and improved with almost every issue. Being broadly national and thoroughly patriotic, it draws its subscribers from all over the Dominion. Its articles are short and bright and all by Canadian writers or on Canadian themes. To those who remit one dollar before September 1st, the publisher will send Canada for eighteen months—from July 1891, to Dec. 1892. Address "Canada," Boston, New York.

WEDNESDAY, AUG. 12, 1891.

A petition was in circulation a few days ago, asking that the dues on hay cut north of the river be reduced to something like a reasonable figure. It may be hard to induce governments to see the wisdom of allowing residents a few tons of hay from swamps where hundreds of tons annually go to waste, but the fact remains that if such could be done in this case, risks of forest fires would be reduced to an extent equal to the amount of hay cut and hauled away. Only last year a local man asked for a permit to cut some logs for lumber just back of the principal hay swamps, but the regulations were then put in force for the first time, and timber could not be cut for barter or sale. These swamps have since been burned with the result that where, as the applicant for the lumber permit estimated, 250,000 feet might be secured, not the one tenth part of that amount is now standing, besides the woful destruction outside the particular spot from which the above cutting was expected. A few examples such as the above may induce the Government to issue orders which will provide for a more generous treatment of residents who do not chance to be actual settlers within the meaning of the act. They now simply ask to be allowed to cut this hay for their own use on the same terms that would be given a homesteader. We hope the Government will see the wisdom of conceding to their reasonable request.

The Qu'Appelle *Progress* is without doubt one of the most painfully modest journals in the country. After treating its readers to an interesting interpretation of the new Northwest Territories Act, extolling the members of the old Assembly, and ridiculing the members of the Advisory Council for having secured almost everything the Assembly have been year after year memorializing for, the editor coolly advises the wisdom of electors in again returning the old member for the Qu'Appelle district.

When one remembers that the old member for that district was Mr. G. S. Davidson, and the proprietors of the *Progress* are G. S. Davidson & Co., the painfully modest disposition of the journal will be apparent.

Mr. Betts paid a flying visit to Lacorne last week. He reports the crops along the trail through Colles-ton, Butler and Paywanan settlements as in splendid condition, some of the coarser grains being ready for the reaper. Mr. Goodfellow has his mill in full operation on the Paywanan creek. Mr. Betts saw the mill at work, and secured a sample of choice flour ground from local wheat. This mill, with its improved machinery, should attract settlers towards the valuable vacant lands in that direction.

"It is not for us to prejudice the case of the accused during the time of investigation; we must in all fairness wait until the decision, then unrestrained we can freely express our views. I am free to confess my satisfaction and pleasure with the work of the committee of investigation so far; they seem to be doing the fair square thing."—Dr. Wild. Individuals, as well as newspapers, who are just now trying to hound Sir Hector Langevin to death, before he is convicted of being guilty of any crime, might give the above extract serious consideration.

Mr. Dewdney, always having in view the best interests of the actual settler, has recommended that those entitled to second homesteads be allowed to homestead their pre-emptions. The Government has accepted his suggestion. Many of our people will now be relieved from a cash payment for lands they would otherwise have been forced to provide for.

Gun clubs within Assiniboia are going to rigidly enforce the game laws respecting prairie chickens. Prince Albert boasts of many keen sportsmen, they should organize for a similar object. With a little care we might always have an abundance of this delicious game.

Various editors of the United States are loudly calling on the farmers to hold their wheat for higher prices. Market reports, however, indicate that they are doing nothing of the kind, but are changing their wheat for currency just as fast as they can get it in.

The August number of the *North-West Farmer*, published in Winnipeg is to hand and as usual is full of valuable information. Every farmer and gardener should support some agricultural paper and none will be found more useful than the journal above referred to.

And now Edmonton is agitating for municipal incorporation. One by one smaller centres are growing into importance. It was not the fault of Prince Albert people that ours was not the first incorporated town in the Territories.

Calgary is talking for an island park. Our own city fathers will soon be expected to take action with a view to opening up the beautiful grounds we hold for the same purpose.

According to the *Standard*, the Regina town council offer some excellent examples for the guidance of smaller municipalities such as Toronto or other cities needing a first-class executive body.

MONTREAL EXPOSITION COMPANY.

The following circular has been received by us:—

In compliance with a widely expressed desire on the part of many prominent Agriculturists and Manufacturers the "Montreal Exposition Company" has been formed with a view of establishing annual exhibitions in Montreal.

The Government of the Province of Quebec having made a grant for the purpose, the Provincial Exhibition will be held this year in the city of Montreal, opening on the 17th and closing on the 25th September.

The commodious and conveniently situated exhibition grounds on Mount Royal Avenue, which are so well known and so easy of access, have been secured for the use of the Company.

Extensive alterations and improvements have been made to the buildings and grounds; a new speeding track has been provided and every facility will be afforded to both exhibitors and visitors.

Many features of more than ordinary interest will be presented in connection with the Exhibition, and in addition to large displays from different parts of the Dominion, exhibits are promised from the United States.

Reduced fares will be given by all railway and steamboat lines during the Exhibition.

Exhibitors' tickets will be issued at One Fare to Montreal and return.

Freight and live stock on exhibition will be returned free of charge, as per arrangement with the railway companies. Freight for exhibition will be delivered on the grounds by the railway and express companies without extra charge.

Steam power and shafting is provided in the machinery hall and agricultural implement buildings, free of charge.

A silo will be constructed on the grounds, and the process of preparing the ensilage will be shown by several of the latest and most improved machines.

An important feature of the Exhibition will be the Working Dairy, in which the most recent and improved dairy utensils will be shown, and their various uses properly explained and illustrated.

An interesting feature of the Exhibition will be the International Bench Show of Dogs.

An excellent programme of Special Attractions, has been prepared under the most capable direction.

Entries and applications for space should be forwarded as soon as possible.

For Prize Lists and all information, address S. C. Stevenson, 76 St. Gabriel Street, Montreal.

WHEN TO CUT FOR SEED.

There is a very general and tolerably well grounded opinion that grain cut when the dough stage is passing into a firmer condition is the very best time at which to cut, if profit and a ready market are the objects in view. Cut much earlier, there is a shrinkage in the yield to the tune sometimes of bushels to the acre. If ripen, there is a duller looking sample, which the man who buys for the roller mill is inclined to reject, and this dislike is well founded. It has gone too far in the direction of starch formation. But there are very practical men who maintain that, though as a milling sample the early cut grain is all right, it is of less value as seed than if cut a few days later. It is difficult on purely scientific grounds to say whether the men who hold to early cut grain as best for both seed and bread or those who want fully ripened seed are nearest the truth. It is quite certain that grain cut pretty soft, say even in the milk stage, will reproduce itself. The germ which is to continue the species is in the eye of mother nature a most important thing, and she rules that if sound and placed at seed time in a reasonably favorable environment the germ will out of the limited amount of food supply bottled up along with it manage to support itself till its roots can procure a further supply of food out of the soil in which it was planted. But in this case the point to be got at is the stage at which the grain of seed shall be in the most perfect condition to reproduce the species and support the tender plant till it can shift for itself. It is well known that when germination takes place nature starts to gradually convert the starch in the grain into sugar as a suitable food for the newly awakened germ. But no scientist has yet got at any demonstration as to whether the more glutinous or more starchy stage makes a better nourished plant germ. It is only by means of very carefully made experiments in a succession of seasons, among

exactly the same set of surroundings, that it can be discovered whether the riper or greener cut grain will produce the earliest and strongest plant. The Farmer inclines to favor well matured seed, but waits fuller light.—*Nor-West Farmer and Miller.*

ANNUAL MATCHES.

OF THE SASKATCHEWAN PROVINCIAL RIFLE ASSOCIATION.

AUGUST 20TH, 21ST AND 22ND.

On Saturday evening last the Council Members of the Saskatchewan Rifle Association met at Mr. Newland's office for the purpose of arranging the annual matches, which commence on the 20th inst. The matches this year take place on the new range north of the river. The first match will be the "Nursery," open only to those who have never won a prize of over \$3 either in money or kind. Range 200 yards; seven shots. The second match is the "Merchants," at 200, 400 and 500 yards; seven shots at each range. Third, the "Association," 200, 400 and 600 yards; seven shots at each range. Fourth, the "Clarke" match; 500 and 600 yards; Martini rifles; seven shots at each range. Fifth, the team matches; 200, 400 and 600 yards; seven shots at each range. Sixth, the "Ladies" match, at 400 yards; seven shots. The entrance fee to the Ladies match will be \$1 for each lady, who must personally ask and get the consent of the gentleman who will act as her champion. Snider rifles will be used in all matches, with the exception of the "Clarke" match, which will be shot with Martini rifles. The meeting was adjourned to 7:30 Saturday evening at the same place.

THE RIFLE.

On Saturday last the seventh competition in the Territories League Matches took place here, the N. W. M. Police team shooting on the range at the Barracks, while the Association team shot on their own range on the north side of the river. It rained heavily during the morning, but cleared towards noon, when the wind commenced blowing, which gradually increased to a gale and continued very heavy during the firing. Notwithstanding the heavy blow, good scores were made by both teams, an average of over eighty being made by each:

We copy the following from the Winnipeg Free Press:

The 'sixth competition of this league took place on the 25th ult., resulting in the team from the Mounted Police at Prince Albert stepping to the front with the excellent score of 1,878 points, being the total of the best five scores. The Saskatchewan Rifle Association team from the same place were second, with 1,825, while Battleford comes third, with 1,777 points. The Winnipeg teams are at the foot of the list—beaten so far, but not discouraged. It is hoped that some of the teams from the Territories may be able to attend the Manitoba provincial matches which take place on the 11th inst., and two following days. The best five scores to date are as follows:—

TEAM	TOTAL SCORES.
Mounted Police, Prince Albert	1,878
Sask. Ass., Prince Albert	1,825
Battleford Association	1,777
Portage La Prairie	1,775
Edmonton	1,769
Brandon	1,766
Regina Association	1,676
Winnipeg Rifle Range Co.	1,632
Manitoba Rifle Association	1,629
Moosomin Association	1,505
Calgary Association	Have not completed score.

The desertion by Mr. O'Dwyer Gray of the Parnell banner is a development of the release of Messrs. Dillon and O'Brien from prison. The indications just now are that an effort will be made to reconstruct the Irish party to support the proposed Liberal home rule scheme, which will be a prominent plank in their platform in the general election.

LOCAL HAPPENINGS

In Our Midst.

The Central school will not re-open till the 1st September.

The water in the river still keeps high—running full from bank to bank.

Strong Bakers Flour \$3 per Sack at F. C. Bakers.

Wednesday, the 19th inst., has been declared a Civic Holiday.

Saturday evening's train was over two hours late. The detention was caused by delay on the main line.

Buy your Confectionery from F. C. Baker. We receive it fresh every week.

Mr. J. Peterson, of Guelph, arrived in town by Saturday's train, and is around renewing old acquaintances.

Miss Baker, of Belleville, and sister of Coun. Baker, of this town, came in Saturday and is staying at her brothers.

The poles for the Electric Light Company have been laid in position ready for setting up in a few days.

Mrs. Hilton, of Fort McLeod, came in on yesterday's train, and is staying at her mother's, Mrs. McLean.

Mr. J. Dyke-Parker, of Fort a la Corne, spent a few days in town last week. He left for home early Sunday morning.

Nearly all the monies for public works on the several trails over which Mr. Betts has supervision has been received.

The new masonic hall is now completed and furnished with beautiful new furniture especially prepared for masonic halls.

The Treasurer is instructed to sell lands in arrears for taxes. Any who are in arrears for 1890 should pay this week and save cost of advertisement.

We believe it is the intention of the Masons shortly to have a grand opening of their new masonic hall. The gathering will be purely masonic.

The rain of the past few days put a stop to haying in this locality. Harvesting will commence at once, as a large amount of oats and wheat is now ready for the reaper.

T. J. Agnew, last week received a large consignment of freight, to be added to his already large and well assorted stock of hardware. The goods were brought in by carts via the old trail.

Mr. Hutchings, of the firm of Hutchings & McLellan, has purchased the lot on the corner of Church and Selkirk streets for \$750. It is his intention to build a fine block of stores on this property in the near future.

Dr. Stovel and wife returned home from Battleford on Wednesday last. The doctor reports crops as looking very well in the neighborhood of the ancient capital, while business was fairly good.

The matches of the Saskatchewan Provincial Association commence on the 20th inst., at the ranges on the north side of the river. Those who intend participating should at once send in their names with the necessary fee to the secretary, Mr. Hanafin.

Every day cribs of timber are seen coming down the river on their way to Moore & Macdowall's mill, where they are at once converted into lumber of different dimensions. The mill is doing good and satisfactory work this season cutting about 20,000 feet per day.

Capt. Deacon, of the steamer Josie, has arranged for an excursion by water to the mouth of the Shell River for Friday next. This is a beautiful spot—good camping ground and splendid fishing. The excursion is given in the interests of the Methodist church. All who can conveniently do so should be at the landing opposite Baker's store at 1 p.m., Friday.

There will be a grand excursion picnic on the civic holiday to Duck Lake. The fare will be only \$1 for adults and 50 cents for children for the round trip. The train will leave here at 8 o'clock a.m., and will leave Duck Lake to return at 5 p.m. Passenger coaches will be provided for the occasion. A good time be expected.

The east end public school opened on Monday last with a full attendance of pupils. A pleasing feature of the opening was the presentation of prizes by Mr. J. F. Betts, M.L.A., for proficiency in Canadian and English history. In a few well chosen remarks he called the attention of the teacher, trustees and pupils to the importance of all seeking to gain a thorough knowledge of the history of our country as well as the motherland. Miss Teddie Deacon and Master Garvin were the prize winners. After their presentation the school was closed for the balance of the day.

At the Queen's—A. W. Croft, J. Prentice, Toronto J. M. Robertson, Moosejaw; A. Elderkin, Regina; Wm. Drain, Duck Lake; Chas. Meek, R. Miller, Calgary.

Mr. Steele of Steele & Wing, photographers, Winnipeg, who has been doing such excellent work here for the past two months, is still kept so busy that he has been unable to make arrangements for his departure. He hopes however, in another week to wind up his most successful visit among us.

The directors of the Lorne Agricultural Society met at the Secretary's office, when it was decided not to hold an exhibition this fall; also that what monies are at present in the possession of the Society will be handed over to the Immigration Committee for the purpose of making an exhibit at the Manitoba Provincial Exhibition.

The handsomely illustrated article on the Cuthberts, of Berthier, which appears in the last issue of the *Dominion Illustrated*, should be read by every one interested in the early history of Canada. In the same number is a delightful article by Miss McLeod on the Augustan days of Edinburgh, recalling memories of Scott, Sydney Smith, Jeffrey, Brougham, Sir William Hamilton and a host of other great names. F. Blake Crofton contributes a charming illustrated poem. There are letters from London, Toronto and Halifax. The Sagamore gives his opinion of the recent Mercier demonstration. A full page portrait of the Emperor of Germany is reproduced, also views in St. John's Nfld., and other fine engravings. The number is a fine one.

THE IMMIGRATION COMMITTEE.

The Immigration Committee are entitled to every consideration at the hands of their fellow townsmen. Those unacquainted with their duties can hardly give them credit for the good work they are constantly attending to. Unfortunately some members are unable, owing to business arrangements to give that constant attention which it is well known they otherwise would. Again there are some who seem to have grown cold in the work for no other reason than that a majority will not always support unreasonable demands. But fortunately, a large majority of the members keep actively at work and the results of their labors are bound to be of great value to the town and country. Hitherto a few citizens of the town have been forced to use too much of their time and money in this work. Steps should at once be taken towards raising a fund to be placed at their disposal. It is not at all credible to the farming portion of our settlement, that they have given no voluntary assistance in the great work of securing new settlers. A few have been prevailed upon to assist in driving prospectors through the country, but in every case bins for horse hire have been sent in, which the committee are obliged to pay. This is not only ungenerous, but it is short-sighted. If our farming settlers are desirous of hilling up the country they should put their shoulder to the wheel along with the residents of the town, and try and assist the Immigration Committee in the great work they are anxious and willing to undertake in the interests of Saskatchewan.

PROPRIETORS

Have Decided to Hold a Special Midsummer Clearing Sale.

SPECIALTIES:

All Light Summer Prints, Dress Goods, Hats, Clothing

At Cost, and Some Goods for Less than Cost.

All we want to do is to turn these goods into ready money, and our low prices will do it. You may ask how we can do this and pay expenses. Let us reason together for a moment. We have three or four reasons. First, you know, money is scarce and worth from ten to fifteen per cent. in this country. So you see it is better to give you a few lines at cost twice a year, rather than carry the goods over until next summer. We are going to invest the proceeds of this sale in Fall and Winter Goods at a small margin, which will be another benefit to you and us.

Second reason—We must make room for large consignments that will be received in a few weeks from European, Montreal and Toronto markets.

Third reason—Our prices are a panacea for the ills of hard times. We have no rent to pay, no clerks to pay, and our expenses are very, very small indeed.

Winning Points—Low Prices, Reliability, Fair Dealing, Great Variety, Golden Bargains, Honor.

We have no percentage of loss on credit sales to charge on the goods you buy. The sale is now going on. Give us a call and we will convince you who the real leaders in low prices are.
